Maurice Hawkins came to me after Court on this date and told me that he had been in the Cell with Curtis Flowers. He said that Curtis Flowers had told him that he had to kill the Black Man in the Furniture Store because he was there, even though the Black guy was his cousin. He also said that he used a .380 pistol. He said that Flowers told him that he never got the money from the safe when there was supposed to be \$20,000.
